

TECHNICAL DATA SHEET

Since 2011

WATER TROLLY TYPE FIRE EXTINGUISHER 45 LTR.

Water fire extinguishers are used to extinguish class A fires, or in other words fires involving flammable solids such as paper, wood, and textile materials. They are most commonly used within environments containing combustible materials such as warehouses, textile factories, storage facilities and office spaces. It can also be beneficial to use a water fire extinguisher within a domestic setting such as living rooms and bedrooms.

Water fire extinguishers cannot be used on electrical fires.

The letters stand for the class of fire the extinguisher can be used against:

CLASS A
extinguish fires involving paper, wood, textiles, cloth, rubber, trash, and plastics.

Technical Parameters

MODEL NO.	PSS-AFFFTFE-45
Capacity	45 Ltr.
Confirming IS Code	IS 16018
Type of Extinguisher	Gas Cartridge
Type of Extinguishing Media	Water
Minimum Effective Discharge	95%
Discharge Time	< 08 mtr.
Operating Temperature Range	(+)5° C to (+)60° C
